

In honor of Autism Awareness Month:

Northern Burlington Regional School District's Seeking Solutions parent group presents:

Applied Behavior Analysis (ABA), Autism & Access

What do you need and how do you get it

Did you know:

- ✓ ABA is an evidence-based approach to treat individuals with autism?
- ✓ You may be able to access over \$36,000 of services per year?
- ✓ There is no age cap for those services?

At this workshop you will:

- ✓ Learn about applied behavior analysis (ABA)
- ✓ Discover strategies & techniques based upon ABA to help individuals
- ✓ Learn ways to access services through health insurance and other avenues

Presenter:

Karen Umstead M.Ed BCBA Executive Director of Beautiful Minds of Princeton

In addition to having a family member with autism, Ms. Umstead is a certified elementary and special education teacher and Board Certified Behavior Analyst. She works with schools/agencies, families, and health insurance companies to provide services related to education, behavior, social skills, and transition.
